

Removal of Abandoned Bicycles from Outdoor Bicycle Racks

The housing company will remove bicycles that appear to have been abandoned in the outdoor bicycle racks. The removal process will take place in two stages.

Stage 1 – Tagging of bicycles

By **9 October 2026**, the Board of the housing company will attach a red tag, as shown in the accompanying image, to all bicycles currently stored in the outdoor bicycle racks. Each tag will bear a sequential number and the wording “**HÄVITYKSEEN.**”

Stage 2 – Removal of abandoned bicycles

If a tagged bicycle belongs to you, please **remove the tag by 7 November 2026** and dispose of it with your mixed household waste.

Any bicycle that still has a tag attached **after 7 November 2026** will be considered abandoned and will be removed. Bicycles that are suitable for recycling will be sent for recycling, while the remaining bicycles will be scrapped.

Please make sure to remove the tag from your bicycle by the deadline to prevent it from being mistakenly removed.

5.10.2026

the Board of the housing company.
